Now in Our 47th Year!

Spring
2017

T&L 900.42: Winning with All Students: Successful Teaching of Academic Skills Within a Cooperative Learning Environment (K-12)

This 3 credit professional development graduate course has been carefully designed to provide the theoretical base, background principles, theory and research related to ways to build resiliency against anxiety, learning to work in groups cooperatively and sharing ways to develop positive schools, behaviors and school climate. Stressing positive behaviors has an increase in student achievement. You will develop your own action plan and incorporate what you learn at this conference into your work setting and personal life We will also discuss global communication and 21st century learning.
